## DIGITAL PRINTING

Digital printing is mostly used for short-run printing starting with one copy. The orders are executed within 24 hours that allows immediate printing of necessary materials.

Large-format digital printing is intended for printing materials up to B0+ format of a very high quality – photo quality 2800 dpi (using 12-colour ink: LUCIA colours for photo reality) and with PROOF (proof sheet) colours quality as per ISO Fogra 12647.

Various printing materials are available: glossy photo paper, matt photo paper, Vinyl film, CANVAS, imitation CANVAS, banners PVC material, laminated material.

DIVES Reklama sheet digital printing technique is intended for A3+ format, printing of the best “offset” quality. This technology is mainly used for short-run printing, starting from one copy. Printing is executed by XANTE printing machine which can print on especially thick paper (up to 427gr/m<sup>2</sup>) and ensures the printout as per ISO Fogra 12647 CMYK colour standards. The maximum print size is A3+ (A3 with margin allowance), printing speed is up to 2000 copies an hour. Digital printing gives a unique opportunity to print the run with different information (with personalisation) and allows increasing efficiency fivefold.

## DESIGN

Offering any product, the brand plays a big role. It is the face of the product, it must be recognizable and laconic. We, DIVES Design Studio, create and maintain company's corporate style (logo, business cards, forms, envelopes, advertising and so on) and integrate all elements into a corporate style book. Existing elements of corporate style can also be improved.

We offer all printing works design development (business cards, forms, envelopes, flyers, booklets, catalogues, folders, calendars and other products). We create design for magazines, newspapers and other media. We create design for banners, signboards, advertising on cars and other outdoor advertising.

Our works are printed and produced in our own production, that's why we know production process very well. It allows us planning correctly design projects, production technologies and preparing the design precisely for your needs.

If you do not know what to choose when preparing design for your company, do not hesitate to ask us, the design studio, we will answer your questions and recommend the best option.
